YEAR TWELVE RETREAT:

The Year 12 retreat to Lake Bennett was a great opportunity for our year level to break away from our daily lives and to come together as a unified group, sharing experiences and working on our many relationships. It really helped us to reflect on ourselves, to get into a positive mind set for the coming year ahead and to work on the relationships that would nurture and support us through the possible hardships of Year 12. It also gave us permission and created opportunities for us to simply have fun.

Not only did our retreat give us time in the presence of God, teachers and ex-students who gave inspiring messages; we also had visitors that shared many experiences, adding further to the group's spiritual experience.

Overall it was eventful and enjoyable, the activities arranged were ice-breaking to some of us who weren’t particularly close and the weather was brilliant, giving us a chance to enjoy the scenery and to soak up the sun during swim breaks!

A huge thanks to Mr. Bourke and all the accompanying staff who made this experience possible.

Grace Bestman (Year 12)
